TOWN CLERK'S REPORT

Report Of The Annual Town Meeting Held March 2, 1968

At the Annual Business Meeting held at the Joseph Osgood School at 2:00 o'clock P.M., March 2, 1968, the following articles were contained in the Warrant and acted upon as recorded:

Checkers previously appointed for entrance by the Selectmen and sworn in by Town Clerk Charles A. Marks at 1:15 P.M., were Mary Isabelle Ainslie, Margaret F. Buckley, Catherine D. Noonan, Mary A. Fiori, Marjorie Wilbur, and Margaret C. Hernan.

Tellers appointed by the Moderator, Robert B. James, and sworn in by the Town Clerk at 1:55 P.M. were Edward F. Tower, Arthur L. Lehr, Jr., Thomas J. Silvia and Edward T. Mulvey.

The number of voters present as checked on the incoming voting lists was 453.

The meeting was opened at 2:15 P.M. by the Moderator and the Town Clerk proceeded to read the call of the meeting.

The invocation was given by Rev. F. Lee Richards.

ARTICLE 1. Voted that the Selectmen be and hereby are authorized and directed to appoint all town officers not required to be elected by ballot.

ARTICLE 2. Voted that the reports of the various Town Officers as printed in the Annual Town Report for the year 1967 be and hereby are accepted.

ARTICLE 3. To hear the report of any committee heretofore chosen and act thereon.

School Facilities Committee

The School Facilities Committee reported that the addition to the High School is progressing and the committee wishes to be continued.

Harbor Dredging Committee

The committee reported progress and wishes to be continued.

Committee To Consolidate The Beechwood And North Cohasset Fire Stations

The committee has not yet completed its assignment due to an inability to meet consistently. However, it has gathered information important to this subject and the committee hopes this will be accepted as a report of progress and wishes to be continued.

The Watershed Protection Committee

The Watershed Protection Committee wishes to submit a report of progress and asks that the Committee be continued.

The Centennial Committee

The Centennial Committee reported progress and wishes to be continued.

Voted unanimously by a voice vote, that all the above committee reports be accepted as progress and the committees be continued.

ARTICLE 4. Voted that the report and recommendations of the Personnel Committee with respect to amending the Personnel Classification By-Law Schedule be and hereby is accepted and said By-Law Schedule is hereby amended by inserting, adopting and substituting the following schedule for the schedule hertofore adopted.

ARTICLE 7. Voted that the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow money from time to time in anticipation of the revenue for the financial years beginning January 1, 1968 and January 1, 1969 in accordance with the provisions of General Laws, Chapter 44, Sec. 4, and to renew any note or notes as may be given for a period of less than one year, in accordance with the provisions of General Laws, Chapter 44, Section 17.

ARTICLE 8. Voted that the sum of \$867.22 be and hereby is appropriated from available cash in the Treasury being the unexpended balance of the Dog Fund received from the County for dog licenses, in accordance with Chapter 140, Section 172 of the General Laws, to be expended for the support of the public schools.

ARTICLE 9. Voted that there be and hereby is appropriated from available funds in the Treasury for the use of the Assessors in fixing the Tax rate for the ensuing year, a sum not exceeding \$80,000.00 as the Assessors in their discretion may determine advisable.

ARTICLE 10. Voted that the sum of \$23,607.92 be and hereby is appropriated from reserve fund overlay surplus; and \$1,392.08 from available funds in the Treasury for the establishment of a reserve fund for the year 1968.

ARTICLE 11. Voted that the sum of \$1,451.20 be and hereby is raised and appropriated for the purpose of maintaining during the ensuing year, the mosquito control works and improvement of low lands and swamps as estimated and certified by the State Reclamation Board in accordance with the provisions of Chapter 112, Acts of 1931.

ARTICLE 12. Voted that the Town of Cohasset, acting under the jurisdiction and provisions of Chapter 252 of the General Laws as amended, join in the South Shore Mosquito Control Project in conjunction with the City of Quincy, and other towns joining therein and that the sum of \$4,700.00 be and hereby is raised and appropriated for the purpose of paying Cohasset's share thereof, the funds to be paid to the Massachusetts Reclamation Board in the discretion of the Board of Selectmen if sufficient other municipalities join to justify such action.

ARTICLE 13. Voted that the sum of \$1,230.00 be and hereby is raised and appropriated to be used with the balance of prior unexpended

appropriations for the Town's proportionate cost for the control of insect, vegetable and animal life in Strait's Pond for 1968 as advised by the State Reclamation Board and as provided by Chapter 557 of the Acts of 1955, as amended.

ARTICLE 14. Voted that the article be indefinitely postponed.

ARTICLE 15. Voted that the Town assume liability in the manner provided by Section 29 of Chapter 91 of the General Laws, as amended by Chapter 5, Acts of 1955, for all damages that may be incurred by work to be performed by the Department of Public Works of Massachusetts for the improvements, development, maintenance and protection of tidal and non-tidal rivers and streams, harbors, tide-waters, foreshores, and shores along a public beach outside of Boston Harbor, including the Merrimack and Connecticut Rivers, in accordance with Section 11 of Chapter 91 of the General Laws, and authorize the Selectmen to execute and deliver a bond of indemnity therfor to the Commonwealth.

ARTICLE 16. Voted that the sum of \$20,601.00 be and hereby is raised and appropriated for the use of the South Shore Regional School District for 1968 to pay Cohasset's share of assessment for the South Shore Regional School District.

ARTICLE 17. Voted that the sum of \$1,460.00 be and hereby is raised from available funds in the Treasury for library maintenance, this sum being received from the State Aid for Free Public Libraries in accordance with General Laws, Chapter 44, Section 53 and Chapter 78, Section 19A.

ARTICLE 18. Voted that the sum of \$1,500.00 be and hereby is raised and appropriated for the reconstruction and resurfacing of existing sidewalks in need thereof.

ARTICLE 19. Voted that the sum of \$6,000.00 be and hereby is appropriated for Maintenance of Highways under Chapter 90 of the General Laws and to meet said appropriation, \$2,000.00 be and hereby is raised and appropriated to meet the Town's share thereof; to meet the State and County share thereof that the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow \$4,000.00 by temporary loan and to issue a note therefore in accordance with Section 6A Chapter 44 of the General Laws in anticipation of reimbursement from the State and County of their share thereof.

ARTICLE 20. Voted that the sum of \$14,000.00 be and hereby is appropriated for Chapter 90 Highway Construction for Elm Street, and to meet said appropriation \$3,500.00 be and hereby is raised and appropriated to meet the Town's share thereof; to meet the State and County share thereof that the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow \$10,500.00 by temporary loan and to issue a note therefor in accordance with Section 6A, Chapter 44 of the General Laws in anticipation of reimbursement from the State and County of their share thereof.

ARTICLE 21. Voted that the sum of \$10,000.00 be and hereby is raised and appropriated for the reconstruction, resurfacing, and installation of necessary drainage on Sohier Street.

ARTICLE 22. Voted that the Town accept Section 5 of Chapter 616 of the Acts of 1967 and that the sum of \$7,676.76 be and hereby is appropriated from funds received or to be received from the Commonwealth of Massachusetts in accordance with Chapter 616 of the Acts of 1967, Section 5 for the reconstruction, resurfacing and installation of necessary drainage on highways.

ARTICLE 23. Voted that the Town amend the Town By-Laws by inserting in Article 21 Section II Par. 1 after the sentence "Such permit must be obtained for each calendar year" the words "at a mooring permit fee set annually by the Selectmen" so that Section II Par. 1 shall read:

"No master or person acting as a master, owner, custodian, or other person shall moor any boat within the limits of Cohasset Harbor without first obtaining a permit to moor said boat from the Harbor Master. Such permit must be obtained for each calendar year at a mooring permit fee set annually by the Selectmen. The application for such permit shall be made to the Harbor Master on a form prescribed by the Selectmen. The application shall set forth the name and address of the owner, the size and type of boat to be moored, the size and type of the mooring, and if the mooring is already in the water the location thereof with sufficient details to enable the Harbor Master to locate it."

ARTICLE 24. Voted to indefinitely postpone this article.

ARTICLE 25. Voted to indefinitely postpone this article.

ARTICLE 26. Voted that the Town vote to amend the Town By-Laws by striking from Article 2 Sec. 6 thereof the words "forty-five days" and inserting in place thereof the words "Sixty days" so that Sec. 6 shall read as follows:

"The time for filing of written requests with the Selectmen by ten or more registered voters for insertion of subjects in the warrant for the Annual Town Meeting shall close sixty days before the time of the holding of said meeting. Copies of all articles in the warrant for Annual or Special Town Meetings shall immediately be forwarded by the Selectmen to the Advisory Committee for their consideration. The Advisory Committee however shall have the right to request of the Selectmen the insertion of articles in the warrant for such Annual Meeting until twenty days before the time of holding said Meeting."

ARTICLE 27. Voted to indefinitely postpone this article.

ARTICLE 28. Voted Yes, 308 to No, 49, that the Town amend its Zoning By-Law by adding to Section 3, sub-section A after the sentence ending with the words but "need not have it on more than one" the following sentence: "No lot shall be established after the effective

date of this amendment unless such lot has fifty (50) feet of frontage along an accepted way or a way approved by the Planning Board or a way to which the public has access. No place between the street line and the building line shall the width of said lot be less than fifty (50) feet. However, any lot on which more than one house **existed** at the time of the adoption of this amendment may be divided and sold to separate owners and used with the minimum of non-conformance irrespective of frontage” so that the first paragraph of sub-section A, shall read as follows:

- A. Residence Districts. In residence A, B and C Districts, there shall be provided for each dwelling hereafter erected on any lot the following minimum lot areas, and either minimum lot frontages or width of lot at construction line, respectively:

	Minimum Lot Area	Minimum Lot Frontage or Width of lot at Construction Line
Residence A.	12,000 square feet	100 feet
Residence B.	20,000 square feet	125 feet
Residence C.	40,000 square feet	150 feet

In the case of a lot fronting on more than one street or private way, the lot must have the entire required minimum frontage on one of the ways, but need not have it on more than one. No lot shall be established after the effective date of this amendment unless such lot has fifty (50) feet of frontage along an accepted way or a way approved by the Planning Board or a way to which the public has access. No place between the street line and the building line shall the width of said lot be less than fifty (50) feet. However, any lot on which more than one house existed at the time of the adoption of this amendment, may be divided and sold to separate owners and used with the minimum of nonconformance irrespective of frontage.

REPORT OF PLANNING BOARD

ARTICLE 29. Voted by a hand vote Yes, 265, to No, 51, that the Town vose to amend its Zoning By-Law by adopting and inserting at the end of Sub-paragraph 9 of paragraph A of Section 4 the following sub-paragraph 9a, as follows:

“An accessory use shall not include an advertising sign except a real estate sign not over four square feet in area advertising for sale or rent the property on which it is placed, but may include a sign not over one square foot in area, bearing a name and the designation of any authorized occupation and being such a sign as is customarily used for a purpose permitted by this section of this by-law. This by-law shall not apply to signs used exclusively for municipal, religious or charitable purposes.”

ARTICLE 30. Voted that the sum of \$2,800.00 be and hereby is raised to be expended by the Recreation Commission to conduct a 10 week (5 days per week) summer program for the children of the Town age 4 through 12.

ARTICLE 31. RESOLUTION OFFERED BY MR. JOSEPH BARRESI.

Voted tht the Committee to Survey the Administrative Functioning of the Various Town Offices, Boards and Departments, in consultation with the Board of Selectmen and such other Boards, Commissions, Officers and department heads as it may deem advisable, be and it hereby is directed to consider in depth and in detail the possibility of increased coordination and communication and possible organizational changes within the town government, and that the Committee report to the next annual Town Meeting with a detailed analysis of the departmental activities and policies to be coordinated, lines of communication to be established and improved, and organizational recommendations, with particular consideration being given to both the establishment of an executive secretary and the increased utilization of presently available personnel in implementing such plans or recommendations by increasing authority and responsibility either within or outside present limitations.

RESOLUTION OFFERED BY MR. JOSEPH BARRESI.

Voted unanimously by a voice vote, that the Planning Board is directed to exercise its legal responsibility for capital planning and programming on a regular continuing basis by the development of an annual capital program.

ARTICLE 32. Voted that the Town raise and appropriate the sum of \$250.00 to be used with the balance of prior unexpended appropriations to acquire by purchase or take by eminent domain, for beach and recreational purposes, any and all outstanding rights, titles and interests and fee in the beach and flats situated on the easterly side of the County road leading from Cohasset to Hull near Wadleigh Park, lying between the road and Massachusetts Bay and extending from property formerly known as the Black Rock House property, in a northwesterly direction toward Green Hill to the Town of Cohasset Town line as shown as "The Mary Lincoln Beach and Flats Property" on plan entitled "Properties at Cohasset made by Luther Briggs, Surveyor", recorded with Norfolk Deeds, December 20, 1881, and filed as No. 333, a copy of which is on file in the Town Clerk's office; such authority to include proceedings under Chapter 80A for the alternative method of taking property by eminent domain, and for assessment of betterments thereunder, and authorize its Board of Selectmen to purchase or take by eminent domain such land.

ARTICLE 33. Voted that the town raise and appropriate the sum of \$2,250.00 for the disposal of the two family house situated near the entrance to Government Island and, upon removal, for the backfilling of the cellar hole to the existing grade.

ARTICLE 34. Voted that the Town vote to designate the South Shore Community Action Council, Inc., a Massachusetts General Laws Chapter 180 non-profit corporation, as the agency to carry out the anti-poverty program as defined in the Federal Economic Opportunity Act

of 1964 (and as later amended) Public Law 90-222) in the Town of Cohasset.

ARTICLE 35. Article defeated by a voice vote.

ARTICLE 36. Voted to indefinitely postpone.

ARTICLE 37. RESOLUTION OFFERED BY LAURENS MAC LURE

Voted that the Town of Cohasset at its Annual Town Meeting in year 1968 take this occasion to express its desire that the Selectmen be and hereby are directed to publicize their intention to sell, lease, exchange or otherwise dispose lands under their control by holding an advertised public hearing at least two weeks prior to such proposed action or by advertising any proposed action for three successive weeks in a newspaper of general circulation in the community.

Voted that article 37 be indefinitely postponed.

ARTICLE 38. Voted that this article be indefinitely postponed.

ARTICLE 39. Voted that the Town authorize the Conservation Commission to expend from the Conservation Fund \$150.00 to purchase or take by the Town by Eminent Domain the land described as follows:

A certain parcel of land situated in Cohasset, Norfolk County, Massachusetts being shown as the parcel marked "Ledge" as shown on a plan entitled "Plan Showing Island in Little Harbor, Cohasset, Mass. prepared for the Cohasset Conservation Commission" dated January 26, 1968 to which plan reference is hereby made for a more particular description. Said Ledge contains 13,500 square feet more or less, a copy of said Plan is on file in the Town Clerk's office.

This land to be used for the purpose described in General Laws, Chapter 1132A, Section 11 and General Laws, Chapter 40, Section 8c as amended.

ARTICLE 40. Voted that the Town raise and appropriate the sum of \$10,687.21 to pay the following unpaid bills for 1967:

REPORT OF THE SPECIAL TOWN MEETING HELD JUNE 4, 1968

At the Special Town Meeting held at the Joseph Osgood School at 8:00 P.M., June 4, 1968, the following articles were contained in the Warrant and acted upon as recorded.

The number of voters present as checked on the incoming voting lists was 305.

The meeting was opened at 8:15 P.M., by the Moderator and the Town Clerk proceeded to read the call of the meeting.

ARTICLE 1. (Inserted by the Board of Sewer Commissioners, Rocco F. Laugelle, Chairman and others)

To see if the Town will vote to appropriate \$191,100. for the construction of a system or systems of sewerage and sewage treatment and sewage disposal as provided in said Chapter 65 of the Acts of 1962 including the right to make any necessary takings by right of eminent domain, and any amount appropriated hereunder is to supplement the appropriation provided under Article 24 voted at the Annual Town Meeting held on March 4, 1967, and to determine whether such appropriation shall be raised by borrowing or otherwise.

VOTED by a hand vote Yes, 246, to No, 18, that the sum of \$191,000.00 be and hereby is appropriated for the construction of a system or systems of sewerage and sewage treatment and sewage disposal as provided in Chapter 65 of the Acts of 1962 including the right to make any necessary takings by right of eminent domain; and the Town Treasurer be and hereby is authorized with the approval of the Board of Selectmen to borrow said sum under the provisions of said Chapter 65 of the Acts of 1962. This appropriation is to supplement the appropriation provided under Article 24 of the Annual Town Meeting held on March 4, 1967.

ARTICLE 2. (Inserted by the School Facilities Committee, Osborne F. Ingram, Chairman and others)

To see if the Town will vote to raise and/or appropriate a sufficient sum of money to acquire for school purposes for the enlargement of the present High School property any and all rights in and to a certain parcel of land shown on plan on file in the Town Clerk's office, entitled "Plan of Taking Cohasset, Mass. prepared for Cohasset School Facilities Committee, dated May 13, 1968 drawn by Lewis W. Perkins & Son, Engineers"; authorize the Selectmen to purchase or take by eminent domain said rights in and to said land, or take any other or further action relative thereto.

VOTED by a hand vote Yes, 242, to No, 1,

(A) That the Selectmen cooperating with the School Facilities Committee be and hereby are authorized to purchase or take by eminent

domain for school purposes for the enlargement of the present High School property any and all rights in and to a certain parcel of land shown on plan on file in the Town Clerk's office, entitled "Plan of Taking Cohasset, Mass. prepared for Cohasset School Facilities Committee, dated May 13, 1968 drawn by Lewis W. Perkins & Son, Engineers".

(B) That the sum of \$1.00 be and hereby is raised and appropriated for the purchase or taking of the above land.

Voted unanimously by a voice vote at 9:15 P.M., that this meeting be dissolved.

ATTEST:

VITAL STATISTICS

Records Of Births, Marriages And Deaths

Recorded In 1968

Births

Total number of births recorded was seventy-seven, of which twenty-two were delayed returns and corrections of past years. Of the fifty-five born in the year 1968 all the parents were residents of Cohasset. There were twenty-nine males and twenty-six females.

PARENTS, BE SURE TO RECORD THE BIRTH OF YOUR CHILD WITH GIVEN NAME IN FULL.

"Parents within forty days after the birth of a child and every householder, within forty days after a birth in his house, shall cause notice

thereof to be given to the Clerk of the Town where such child is born.”

— General Laws, Chapter 46, Section 6.

Many times returns are made by doctors and hospitals, before a child has been named. Make certain your child's name is recorded.

Marriages

Total number of marriages was seventy-seven, including those where both parties were non-residents of Cohasset. Forty-four were solemnized in Cohasset during the current year. There was one delayed marriage received for 1967.

Deaths

Total number of deaths was eighty-seven, including residents of Cohasset who died elsewhere and non-residents who died in Cohasset. Of the fifty-eight who were residents of Cohasset, thirty-one were males and twenty-seven were females. There were six delayed and corrected returns of deaths, three males and three females.

REPORT OF THE BOARD OF REGISTRARS

Number of registered voters on January 1, 1968	3402
Removed from voting list because of removal to other towns, death and marriage	155
	<hr/>
	3247
Added to voting list by registration, etc.	577
	<hr/>
Total number of registered voters on January 1, 1969	3824

Enrolled Totals

Republicans	1445
Democrats	938
Unenrolled	1441

Any resident not listed in the Census taken by the Board of Registrars during January and February should inform the Registrars before May 1st.

Meetings for the registration of voters are held at stated times during the year. Notices of these meetings are posted in the Post Offices of the Town and in many other public buildings.

Respectfully submitted,

CLARENCE M. GRASSIE, Chairman

BOARD OF APPEALS REPORT FOR 1968

The Board of Appeals heard five matters during the first eleven months of 1968. No unheard application is now pending, so it is safe to assume that no hearings will be scheduled in December, and this report may be considered as inclusive for the year.

No appeals to the Superior Court from decisions of the Board have been taken in 1968.

There was pending in Norfolk Superior Court an appeal from a decision entered several years ago. During 1968, this appeal was dismissed without cost to the Town.

All the money expended by the Appeal Board from its 1968 budget was for advertising of public hearings on applications for variances or for special permits.

Respectfully submitted,

Cohasset Board Of Appeals

ROGER B. COULTER, Chairman

REPORT OF THE BOARD OF WATER COMMISSIONERS

The Water Department is required by statute to operate from income and not through tax revenue. Consequently, its capital improvement program was curtailed during the past year due to insufficient income. The only major undertaking accomplished was the installation of a new pump and the reactivation of one of the Sohler Street wells, thus increasing their yield. Contrary to general belief, we are still highly dependent upon our wells, especially during the summer months.

Private developers installed 3500 feet of main and six new hydrants, which have been accepted by the department.

Forty-two new services were provided and fifteen services were renewed during the year. Our system now serves 1724 residential and 82 business consumers exclusive of the schools and other town-owned facilities.

The volume of water treated and distributed this year nearly equalled last year's record of 203 million gallons. Had rigid curtailment of use not been required last summer, the record volume would have again been exceeded.

The existing system is incapable of meeting peak demands. Substantial expenditures are necessary in order to fulfill these needs, as well as providing for the future. Your Commissioners are studying means for providing the necessary income to finance expansion of storage and treatment facilities. Quite frankly, it is not an easy task.

We would like to take this opportunity to thank the various town officials and department heads for their co-operation during the year, with special thanks to the Highway, Fire and Police departments for their valuable assistance under emergency conditions last winter. Needless to say, we are grateful for the splendid performance of the superintendent and all department personnel, who have helped to make our job a little easier.

BOARD OF WATER COMMISSIONERS
Henry W. Ainslie, Jr., Chairman
Rocco F. Laugelle
Alan S. Murphy, Jr., Secretary

REPORT OF THE PLANNING BOARD

At the 1968 Town Meeting the voters of Cohasset accepted our proposed amendment to the zoning by-law increasing frontage for a lot from 20 feet to 50 feet. This has been a tremendous advantage to the Board in maintaining what we consider an orderly development of the so called "pork chop" divisions of land. Next year we anticipate submitting additional zoning by-law amendments.

At the past Town Meeting Mr. Joseph Barresi offered a resolution that the Planning Board exercise its legal responsibility for capital planning and programming on a regular continuing basis by the development

of an annual capital program. Thus, the past year has been quite busy with capital planning. We were very fortunate to have the able assistance of Mrs. Ellen Smith and Mr. Brian Wilkin working on this project with the Board.

During 1968 30 lots were approved for residential construction. The total number of approved lots not yet built on is now 157.

We also have been very busy with drainage problems due to neglected or damaged brooks. This particular problem has consumed much time, study, and on-site inspection in various sections of the town to alleviate the cause.

The cooperation of Mr. Anthony W. Vento ,health agent, and Mr. Edwin H. Pratt, water superintendent, as well as officials, Boards, and other employees of the town during the past year is deeply appreciated.

Respectfully submitted,

LAWRENCE AINSLIE

NATHAN W. BATES

NORMAN W. BROWN

GILBERT S. TOWER

JOHN H. BARRETT, Chairman

REPORT OF THE WIRE DEPARTMENT

Five new Fire Alarm boxes were installed at location spots to give better coverage in these areas.

All Fire alarm boxes were tested, oiled and painted. All new electrical installations and repairs in town owned buildings were done by this department.

Electrical wiring performed by Electrical Contractors was carefully inspected and wiring permits and fees were filed with Town Accountant and Town Treasurer.

Due to the new additions of the High School much time is involved by this department in wiring changes of Fire Alarm and other wiring systems.

I wish to express my thanks for the help and cooperation received from all Town Officials and Departments of the Town of Cohasset.

Respectfully yours,

EDWARD P. MALLEY

Superintendent of Wires

REPORT FROM THE PERSONNEL COMMITTEE

The Committee met frequently during the entire year and especially during November and December in order to keep abreast of current requests and needed changes and to determine the recommendations for 1969.

Meetings, both formal and informal, were held with the personnel of many departments, with the Advisory Board, and with the Board of Selectmen.

The Massachusetts and Boston Consumer Price Index was used to show the effect of inflation on the purchasing power of wages and the Municipal Salary Survey of 186 Massachusetts towns, including all South Shore towns, was carefully analyzed to assist in determining the recommendations for 1969.

The Committee recommendations are contained in the articles of the warrant relating to wages. They include a 6 percent general increase, three jobs changed because of changed evaluation of responsibilities, and a few speed-ups of step increases within a rate range for new employees or those promoted.

Compared with other towns of the state with a population of 5,000 to 10,000, or even with 10,000 to 15,000, Cohasset ranks very high in all phases of employee compensation.

We wish to express the Committee's thanks to all who have assisted us in our work of this year.

Mr. Herbert R. Towle, Chairman for the years of 1966 and 1967, resigned during 1968. He was succeeded by Mr. Richard Sarnell who also resigned during 1968. Mr. G. H. Howkins was appointed to the Committee in September and was elected Chairman in October.

Respectfully submitted,
G. H. HOWKINS, Chairman

CIVIL DEFENSE REPORT

To keep abreast of current Civil Defense preparedness programs I have attended monthly meetings at Sector Headquarters in Stoughton.

Our emergency operating center has participated in monthly drills and to make our radio reception more effective a new antenna has been erected on top of the High School.

The emergency warning system is tested twice monthly by the Fire Department and one of the signals will soon be relocated to town owned property on Forest Ave. The Army Duck is being reconditioned and will be permanently assigned at the Central Fire Station.

I wish to express my thanks to the Board of Selectmen and various Department Heads for their cooperation.

Respectfully submitted,
T. GERARD KEATING
Director of Civil Defense

REPORT OF THE LIBRARIAN

This will be my last report as your Librarian. The cooperation of the Library Boards and the Townspeople has combined to give us a fine Library and I look forward to more progress under new leadership in the years ahead.

It has been a good year for the Library. There has been an upswing in the circulation; the formation of the Friends of the Library; our first film showing for the children and adults; the cataloging and shelving of Mr. Gammons' music library, and the installation of drapes in the Children's room and Assembly Hall.

It was during Library Week in the Spring of 1968 that we had our first film program for children and adults. Other programs of interest were: Dr. Bergen talking about his book *Old Nantasket*; Mrs. Elaine Wentworth on her book for children *Mission to Metlakatla*, Mr. Hildebrandt on current books, a string quartet concert of chamber music by William Bell and friends; and Mrs. Frost with her delightful display and discussion of materials for Interior Decorating. Friends of the Library, Trustees, Directors and Library staff cooperated to make the week interesting and successful.

The Library has received gifts of books from the Garden Clubs, Woman's Club, Cohasset Village Book Shop and various individuals. Dr. and Mrs. Eliot Hubbard, Jr. presented the Library with an attractive display rack in memory of Helen B. Hubbard. We have had continuous Art Exhibits through the courtesy of the South Shore Art Center and interesting Historical Exhibits courtesy of the Historical Society.

Statistics for the year are as follows:

New registrations	479
Registrations withdrawn	15
Number of books added (inc. recordings)	1,751
Number of books withdrawn	1,117
Total volumes in Library	33,822
Adult circulation	53,309
Juvenile circulation	31,540

Respectfully submitted,
SARAH E. HEYWOOD
Librarian

SOUTH SHORE MOSQUITO CONTROL PROJECT

Submitted herewith is the report of the South Shore Mosquito Control Project's activities for the year November 1, 1967 to October 31, 1968.

The Project is a year round cooperative effort embracing the City of Quincy and Towns of Braintree, Cohasset, Duxbury, Hingham, Hull, Marshfield, Norwell, Scituate and Weymouth, covering a total area of 172.21 square miles serving a population in excess of 223,000.

The Project is authorized and acts under provisions of Massachusetts

General Laws, Chapter 252, Section 59, mosquito control provisions, and Chapter 112, Acts of 1931, pertaining to ditch maintenance of the salt marshes.

The Project continued to base its program on a three-phase mosquito reduction operation: Mosquito Source Reduction, Mosquito Larval Reduction and Mosquito Adult Reduction, giving priority in this order.

1. Source Reduction — By properly placed and maintained ditches on coastal marshes, tidal and storm waters are allowed to flow properly off, where otherwise in part would become brackish to breed mosquitoes. Fill from ditch excavating must be graded to insure water pockets are not left to breed.

The Project engages in many fresh water brook and stream **clearance** works, to eliminate temporary flood pools capable of mosquito breeding. In many cases it becomes necessary to excavate a **new** ditch through flood areas, to allow extreme rains and spring thaws to inundate this run off ditch, keeping water level at a minimum to reduce, if not eliminate, the mosquito breeding from the area.

Brush clearing is necessary on most fresh water work to enable access of Project's trencher as well as for checking and spraying purposes.

Source reduction in lineal feet for this period:

Reclaimed ditch	50,330
New ditch	4,110
Brook and stream cleaning	23,335
Brush clearing	15,235

2. Mosquito Larval Reduction — To prevent mosquito eggs from hatching, the Project in the later winter months when ice cover allows walking upon, pre-hatch dusts many small isolated woodland pools. In mid-spring, usually after spring rains and thaw, helicopter and fixed wing aircraft are used to **air spray** the larger woodland flooded areas, to reduce the early spring hatch of mosquitoes that would normally emerge in great numbers.

During the summer season it becomes a continual operation of checking and **larviciding** for there are so many types of wet areas, salt marshes, temporary flood pools, rock pools, quarries, tree holes, roadside pools, **storm catchbasins** and many other water containers and each of these will breed their own specific specie of mosquito.

Amounts of insecticides used to larvicide with approximate acreages for this period:

Prehatch dust —	3400 pounds to approximately 680 acres
Air spray larviciding —	9730 gallons to approximately 9730 acres
Ground larviciding —	4821 gallons to 4821 acres
Storm catchbasins —	2077 gallons to 20,957 basins

3. Mosquito Adult Reduction — Control of adult mosquitoes be-

comes necessary when large numbers emerge and move into the residential and recreational areas of a community. Many of these mosquitoes are breeding in the many unnatural water receptacles around homes, others migrate from uncontrolled large areas out of this Project's district. With these conditions it becomes necessary to space spray, or thermal fogging. These are methods by which mosquitoes are knocked down in flight, or residue spraying where mosquitoes resting upon treated surfaces are eliminated.

Preference of mosquito control methods — This project would give to first, reduction of the sources for mosquitoes breeding, second, to its larval control. These would give sure and lasting results. However, each year telephone and letter requests for adult spraying of the neighborhoods increase. We must, due to work load, cut back on the former two methods. The Project would like to see more source reduction and larval control. This would also eventually mean a reduction in adult mosquitoes, which in turn would give a better and more lasting control of mosquitoes with the least expenditures of insecticide, time and funds.

The Project mosquito adulticided with both mist blowers and power sprayers:

11,990 gallons of insecticides to approximately 11,990 acres.

It thermal fogged, using 303 gallons of insecticide applied to approximately 1800 acres.

This Project has now on order and expecting in the near future a new Diesel marsh crawler tractor with winch and backhoe attachments. This, making two trench units in operation, which shall at least double the output of trench footage next year.

Also on order is a second catchbasin spray unit, a right hand drive Jeep Universal with power sprayer. This has been needed for some time in order to get all breeding catchbasins at the proper time.

The Project's operations for next year shall be based much as it has in the past. However, there are many new chemicals, as well as methods, coming about enabling us to pinpoint our control to the mosquitoes without damaging, contaminating or unbalancing other members of the natural environment. Some we have tried, others we have plans to try.

The Project's Superintendent and most permanent personnel are all members of the Northeastern Mosquito Control Association, an educational organization formed to promote the efficiency of mosquito abatement through research, development or procedure and to interchange information with other mosquito control districts throughout the country. The Project's personnel have in the past several years attended training courses on mosquito control methods, safe use and handling of insecticides. They have all been tested and licensed in this capacity by the Massachusetts Pesticide Board. All journals, bulletins and publications relating to mosquitoes are received and read to be assured of up to date

operation. The Project can give assurance to all it has and shall continue to be conducted in an intelligent and efficient manner.

The Project wishes to acknowledge the help received from officials and departments of the communities it serves and sincerely hopes that benefits derived by these departments as a result of this cooperation are as great as those derived by the Project.

Respectfully submitted,

DAVID E. TRUESDELL

Treasurer

REPORT OF THE BOARD OF SEWER COMMISSIONERS

After some delay in receiving necessary approval for State and Federal funds for the construction of your new Water Pollution Control Facility, bids were opened in mid-April, with all bids coming in higher than available funds, due to the rising costs between the time of the Engineers' original estimates and the date of the bid openings. Faced with this problem, your Commissioners called for a special town meeting on June 5, 1968. With the additional funds approved, construction began July 1, 1968.

To date progress has been on schedule, and should continue, assuring completion in early Spring 1969.

During this period, your Commissioners have expended their efforts, not only in overseeing the progress of construction, but have established plans for a department to handle the administration and operation of these facilities.

We would like to take this opportunity to thank the various town officials and department heads for their cooperation and assistance, and to our part-time Superintendent, who has been our liaison with the engineers, general contractor, town officials and citizenry.

BOARD OF SEWER COMMISSIONERS

Rocco F. Laugelle, Chairman

Henry W. Ainslie, Jr.

Alan S. Murphy, Jr., Secretary

REPORT OF THE TREE WARDEN

Good care and good growing conditions have kept our trees in good condition so that few have had to be removed. Trees growing to suitable size have been planted where possible.

Weak branches and dead wood have been pruned on street trees to prevent breakage in storms.

Roadsides were continued to be pruned and grasses mowed to improve the vision and keep the roadsides neat.

Many thanks to all officials and citizens who by their calls and comments have assisted me in my work.

Respectfully submitted,

HOWARD BATES

Tree Warden

SOCIAL SERVICE LEAGUE REPORT

The staff of the Social Service League of Cohasset provided the following services from January 1, 1968 - December 31, 1968, on orders from the attending physician, (Nursing and Physiotherapist, and approval by the Welfare Department.

Nursing Service	Admissions	Visits
Medicaid	4	160
Medicaid (Medicare B)	9	315

Some patients, who had previously qualified for Medicare, became ineligible with the 1967 Revision by Social Security and are partially responsible for the increase in Medicaid visits.

Physiotherapy	Admissions	Visits
Medicaid	2	5
Medicaid (Medicare B)	2	11

The cost of the above services incurred after June 30, 1968, were assumed by the State.

Family Service

9 cases, known to the Welfare Department, have also been known to the Caseworker, Mrs. Wright, and 3 of these are still receiving treatment. We have referred 3 cases to the Welfare Department during 1968, and are most appreciative of Mrs. Oliver's and Miss Holub's prompt and considerate cooperation in these, as in all other cases carried jointly.

Respectfully submitted,
MYRTLE E. MEDEIROS, R.N.
FRANCES P. WRIGHT, Caseworker

REPORT OF SUPERINTENDENT OF INSECT PEST CONTROL

Dutch Elm Beetle and Canker worms are the only insects bothering our trees to any extent. These have been controlled with SEVIN, a comparatively safe insecticide.

Dutch Elm Disease

Our Elm Trees are sprayed with Methoxychlor, a non-persistent insecticide, to control the Elm Bark Beetle, the vector of Dutch Elm Disease.

There were 60 condemned cases of Dutch Elm Disease last year. All free falling trees have been cut and the remaining trees to be topped should be removed by early spring.

Poison Ivy

Poison Ivy was sprayed as usual.

Respectfully submitted,
HOWARD BATES
Superintendent of Insect Pest Control

BOARD OF PUBLIC WELFARE

The Department processed 51 applications in the period from January 1, 1968 to June 30, 1968 prior to the State control of Public Welfare. Of the 51 applications, 45 were approved.

Total expenditures covering the five categories for this period were \$151,520.83; total reimbursements by Federal and State were \$129,230.87.

We should like to express our appreciation to Mrs. Wright, Social Worker and to Mrs. Medeiros, District Nurse and her Staff for their services and assistance.

School Department officials work in conjunction with our Department to provide the children with every educational opportunity. May we express our appreciation for their assistance.

Camp experiences were realized for many children because of the generosity of religious and civic groups. We are very grateful for their continued interest and efforts.

Since the State has taken over Public Welfare, there shall be no further reports forthcoming.

Respectfully submitted,
JUANITA J. OLIVER
Director of Public Assistance

REPORT OF THE BOARD OF SELECTMEN

The Selectmen report completion of all matters placed in their hands by Town Meeting votes with the exception of the completion of the purchase of 6.648 acres of land for school purposes as authorized by Article 26 of the 1967 Town Meeting and the clearing up of the title to Black Rock Beach, so-called, both of which are in the hands of Town Counsel.

The dredges have finally left the harbor and the specified work has been completed. Still to receive final consideration is the question of removing some outcroppings of ledge and rock. It is understood that a balance of funds remains to attend to these matters and the final decision of the Army Engineers is awaited.

We have recommended to the Personnel Committee that the office of Harbor Master be made a full time position with a salary commensurate with its duties and responsibilities. Many areas of concern exist, both administrative and functional, although progress has been and is being made. A Committee has been established to assist in definition and resolution of the problems and it has worked actively with the Harbor Master, Harry Ritter.

With the "Baby Hoover" Committee we have met at least once with

all elected and appointed town officials and boards. It is hoped that these meetings have made possible increased understanding of the differing points of view that exist. The Board of Selectmen continue to feel that an Executive Secretary would not fulfill a useful function within the present framework of town government. Provision in the budgets for increase in technical assistance to several of the town boards and officials, on the other hand, seems most desirable.

The rehabilitation of Government Island, aided by substantial contributions from interested citizens, due in large measure to the efforts of the Cohasset Historical Society continues in a gratifying manner. The Government Island Committee has many aspects of future development of this area under study and will continue to report from time to time.

Our thanks to all town employees, department heads, boards and committee members for another productive year, and our appreciation also to those who from time to time bring matters to our attention for responsible action.

Respectfully submitted,
GEORGE W. McLAUGHLIN, Chairman
ARTHUR L. CLARK
HELEN E. SCRIPTURE

GOVERNMENT ISLAND COMMITTEE

Herewith is the annual report of the Government Island Committee for the year 1968.

The Committee has held meetings at frequent intervals during the past year with considerable time and thought directed to formulating plans for the future use of this valuable community property.

Significant improvements have been made by the Cohasset Sailing Club, by the Cohasset Historical Society in the restoration of the Minot's Light templates, and by the Town in the removal of the building near the entrance. Consequently, this Committee believes that the appearance and value to the community of this property have been greatly improved and the purposes for which the area was originally acquired are beginning to be realized.

There have been a number of proposals from private groups for use of portions of the property. We particularly refer to proposals of the South Shore Art Center, the George H. Mealy Post American Legion and a group sponsoring a swimming pool.

It will be recalled that at the annual Town Meeting held March 2, 1946, the sum of \$29,000.00 was appropriated by the Town for the purchase of Government Island for "recreational, proprietary, utilitarian or any other municipal purpose or purposes for which the same may be adopted for the benefit of the residents of Cohasset". Vote: 377 yea - 2 no.

This committee is therefore unanimously of the opinion:

1st. That each new proposal for the use of any part of the area must

be considered in the light of the part it plays in our total recreational picture.

2nd. That no part of Government Island should be sold for the foreseeable future on the basis of the 1946 town meeting vote, and of our conviction that the expansion of recreational facilities will require most of the use of this property.

3rd. That no commercial enterprise be permitted on the premises with the exception of the fishing industry by Cohasset residents.

4th. That improvements to the physical properties, especially the access roads and parking areas, should be continued in line with plans already submitted to the Selectmen.

5th. That consultations be held with the Harbor Committee, Community Center, Boy and Girl Scouts, Conservation Commission, Recreation Commission, and possibly others, in the determination of suitable plans for the use of this area.

Numerous other points have been raised at one or more of our meetings and in our opinion deserve further study, such as:

Limiting the use of the Island to Cohasset residents by requiring parking stickers similar to those in use at Sandy Beach.

Establishing facilities for docking and service of private boats owned by residents and visitors to the harbor, including a Town sponsored Yacht Club.

Such improvements in the recreational facilities that could be completed without incurring large capital or maintenance expense to the taxpayers.

Custodianship, maintenance and policing of this area. In this regard a Government Island Commission should be established to act as managing authority of the entire property. Said management commission to consist of one member of the Board of Selectmen, Harbormaster, Sailing Club, Fishermen's Association and Historical Society.

The Board of Selectmen would be notified of any proposed use and occupancy of the premises and said Board would have the right to veto same provided notice of objection is given to the "Commission" within 60 days of receipt of notice from the "Commission" to grant permission by lease or otherwise to an interested party.

The Government Island Committee wishes to study further the future role of the Island and its part in our total recreational picture. Therefore, we ask that this report be accepted as one of progress and that this Committee be continued.

Respectfully submitted,
GOVERNMENT ISLAND COMMITTEE

GERARD J. STANTON, Chairman
MARY JANE E. McARTHUR, Secretary
PRESCOTT T. CUMNER
EDWARD FIGUERDO
A. FREDERICK PETERSEN
HARRY H. RITTER, Harbormaster
RICHARD C. TOUSLEY

REPORT OF THE HARBOR MASTER

It is with pleasure that I submit this report for 1968 as your Harbor Master, for I feel that 1968 was a year of several firsts for Cohasset Harbor.

One was the initiation of the requirement that every boat owner must apply for a mooring permit to be issued on a first-come first-served basis upon payment of a nominal fee.

Another was accomplished through a transfer of funds, \$1,500.00, by the Advisory Board for the purpose of relocating moorings after the long last dredging of the harbor by the Army Engineers.

Still another was the appointment of an active Harbor Study Committee by the Board of Selectmen.

And last but not least, a building placed on Government Island to be used as an office for the Harbor Master.

I sincerely believe that these several steps are taken in the right direction to put the harbor on a self supporting basis in the near future.

The boating industry is growing at an alarming rate, over 200% nationwide in the previous year. This can well be appreciated by boat owners as well as by potential owners. At the present time there are over 90 boats on a waiting list for mooring permits in Cohasset Harbor.

It should be obvious that due to the limited amount of space to work with and the congestion that now confronts us, the by-laws pertaining to the harbor must be adhered to for the best interest of all concerned rather than on an individual basis.

It is hoped that with the cooperation of the boat owners, the standing committees associated with the harbor, the Board of Selectmen and all other interested citizens, Cohasset Harbor will be utilized in the best interests of all concerned. This should enhance its natural beauty and be recognized by all.

Respectively submitted
HARRY RITTER
Harbor Master

SEALER OF WEIGHTS AND MEASURES

I hereby submit my report as Sealer of Weights and Measures for the year ending December 31, 1968.

A total of one hundred and fifty two (152) weighing and/or measuring devices have been tested and sealed. Three (3) adjustments were made and one (1) weighing device was rejected.

The amount of two hundred and forty-four dollars and five cents (\$244.05) for sealing fees was collected and paid to the Town Treasurer, Cohasset, Massachusetts.

Respectfully submitted,
BENJAMIN F. CURLEY, JR.
Sealer of Weights and Measures

1968 REPORT OF THE BOARD OF ASSESSORS

Our 1968 financial report is as follows:

REPORT OF THE COMMITTEE TO SURVEY THE ADMINISTRATIVE FUNCTIONING OF THE VARIOUS TOWN OFFICES, BOARDS AND DEPARTMENTS

In fulfillment of Article 46 passed by the 1967 Town Meeting and in accordance with a resolution of the 1968 Town Meeting, the Committee submits this report. As part of this report 3 articles and 1 resolution have been attached for consideration by the 1969 Town Meeting.

In 1968, joint meetings were held by the Committee and the Board of Selectmen with all Department heads and boards except the Water and Sewer Commissioners.

The Committee is still convinced, as it reported last year, that there is a lack of coordination and unifying direction in the governmental affairs of the town. The present system provides many small, independently operating town offices and departments reporting only to the annual town meeting. While all of these individuals and departments may cooperate on individual matters there is presently no central body or administrative head planning for and directing improvements, efficiencies, and coordination of all administrative functions in all town departments. While the Board of Selectmen does exercise administrative direction over a limited segment of town government, such control is restricted to a relatively few town offices specifically reporting to the Selectmen and thus any action beyond those offices can be achieved only at the sufferance of each of the other town departments.

For example, central purchasing of a wider range of items used in all departments or the centralized purchase, storage, maintenance and inter-departmental use of a greater proportion of our town-owned equipment are extremely difficult to achieve under the present system.

We have examined the purchasing procedures of the town and the extent to which modern methods and procedures are in use in the town offices. We do not believe that substantial savings can be realized in the short run. Centralized purchasing of several major items is in effect. The small number of Town Hall employees would not produce significant savings, even if some reduction of employee effort were achieved by revised office procedures or equipment.

We do, however, believe that long term savings and avoidance of potential cost increases are possible with the continuing administrative efforts of a Board of Selectmen assisted by an Executive Secretary, with the consolidation of several separate town departments and with some other changes in the basic structure of our town government.

Your Committee further agrees that several of the town boards and departments, and accordingly the town, suffer because of inadequate engineering or technical assistance. Although a sum is annually appropriated for a Town Engineer, it is inadequate to service the total technical needs of agencies such as the Planning Board, Board of Health, Conservation Committee, Highway Surveyor and others. We believe that in-

creased technical effort should be expended on such aids as topographical surveys, three dimensional maps, street profiles, drainage surveys, etc. Equally important is the need for readily available technical assistance in zoning, sub-division control, zoning enforcement, building code inspection (upon adoption of a building code), public works projects and other specialized problems faced by many departments of our town government.

Therefore, in order to achieve an improvement in the structure and operation of our town government the Committee recommends adoption of a continuing program based upon the following basic changes:

Administrative Director

We believe that the powers and responsibility of the Board of Selectmen should be broadened so that the Selectmen will be specifically responsible for a greater degree of administrative direction and coordination among all town departments. Such broadening of responsibility would be achieved by resolutions of the town meeting, specific articles passed by the town meetings, amendment of town by-laws and where necessary by obtaining legislative modification of the General Laws by the Legislature.

To assist the Board with their expanded powers and with the day to day coordination and administrative management of town affairs an Executive Secretary should be provided. To help pay for the new office, the salary for the Office of Selectman should be reduced to a nominal amount.

Thus, we are submitting an article for passage of a by-law authorizing the employment of an Executive Secretary. However, while we recommend that the new by-law be adopted by the 1969 meeting, we suggest that it not be implemented until a Board of Selectmen agrees to the need and is willing to utilize the office to its potential. We do not believe that the present Board agrees with us and thus the office should not be thrust upon it. An Executive Secretary can only be beneficial when a Board of Selectmen wants it since such officer can only exercise those duties delegated to him by the Board.

Technical Assistance

Your Committee does not visualize a full-time engineer at this time. Instead we suggest a contractual arrangement with an engineering firm or a qualified individual engineer to provide technical assistance for all town agencies. Any firm or individual retained by the town will be precluded under the "conflict of interest" law from representing a client in any adversary proceeding with the town.

It is suggested that the responsibility for selecting, engaging, assigning and coordinating the activities of the engineering firm or individual engineer should rest with the Board of Selectmen.

Thus, we are submitting an article to the 1969 Town Meeting to provide for such technical assistance beginning as of January 1, 1970.

Treasurer-Tax Collector

While the Committee recognizes the diligence and industriousness of both the incumbent Treasurer and the incumbent Tax Collector, we do recommend the consolidation of the two offices and the election of a single Treasurer-Collector in 1970.

With the consolidation of the duties of these two officials and the combination of their office staffs into a single office, there should be a detailed procedural review of the new combined function. We believe that the resultant combined operation will result in a long term reduction of salary and administrative costs.

Thus, we are submitting an article to the 1969 Town Meeting to provide for the consolidation of these offices effective with the town election to be held in 1970. If this article is passed by the 1969 Town Meeting, the Committee to Study the Administrative Functioning of the Town Government, or its successor, would provide prior to January 1, 1970 a recommended revised salary for the new position and cooperate with the Personnel Board as to any possible revisions required for the combined office staff of the new office.

Board Of Public Works

There are many of the separate and independent departments of the town government which have overlapping responsibilities, or whose functions are dependent upon technical or engineering direction.

Recognizing that this situation exists throughout the Commonwealth, the General Laws provide for any town to adopt a Board of Public Works to direct, coordinate and oversee the functions of such subdivisions as highway surveyor, tree warden, moth superintendent, water commissioners, sewer commissioners and others as set forth in Chapter 41 of the General Laws.

The adoption of a Board of Public Works to direct and coordinate the various technical departments of our town government would provide the opportunity for the centralized control of a very high proportion of town-owned equipment, extension of standardized specification to technical purchasing, centralizing of overlapping functions such as maintenance of parks, playgrounds, cemeteries and other town properties and greater inter-departmental use of personnel as well as equipment.

Thus, we are submitting a resolution to the 1969 Town Meeting to obtain the sentiment of the town as to the advisability of establishing a Board of Public Works.

Summary

Your Committee believes that the increasing population of Cohasset and the changing nature of problems facing the town requires certain changes in the structure and administration of the town government.

We believe that the changes suggested will result in the long range improvement of the efficiency of our town government.

It is our conviction that the program for improvement of the functioning of our town must be a continuing effort but that the 1969 Town Meeting should approve the three articles and one resolution presented by the Committee as a definite start to the long range efforts for change and improvement.

If the articles and/or resolutions are adopted by the 1969 Town Meeting then a further resolution will be presented to the Town Meeting for continuance of the Committee to implement the articles and resolutions as passed by the Meeting.

Respectfully submitted,
JOSEPH R. BARRESI
LOUIS F. EATON, JR.

REPORT OF THE FIRE DEPARTMENT

Inventory Of Automotive Equipment Of The Fire Department

Company	Type of Equipment	Stationed	Make	Year
Engine 1	750 GPM Triple Combination Pumping Engine	Headquarters	Pirsch	1961
Engine 4	500 GPM Pump - 400 gallon Water Tank	Headquarters	Ford	1953
Ladder 1	65 foot Junior Aerial	Headquarters	Pirsch	1947
Forest	500 GPM Pump - 400 gallon Water Tank	Headquarters	Dodge	1955
Engine 2	750 GPM Triple Combination Pumping Engine	North Cohasset	Pirsch	1954
Engine 3	500 GPM Triple Combination Pumping Engine	Beechwood	Mack	1950

Miscellaneous Vehicles

Type of Vehicle	Department Use	Make	Year
Four door Sedan	Chief's car	Ford	1967
Panel Truck	Lighting Plant (Department Built)	Ford	1953

Provided for in the budget for the year 1968 was a sum of money to replace the water tank on Engine 2, which was defective. This was done, increasing the capacity from 200 gallons to 400 gallons, also the hose body was modified to maintain the hose carrying ability. The tank was made

and installed by a local welding shop, under department supervision. Department personnel installed piping, painted and performed other necessary and related work. With this work completed it gives all pumping engines of the department the capability of utilizing pre-connected 1½ inch hose lines for quick attack as well as the ability to lay parallel hose lines.

Routine maintenance, such as plugs, points and so forth, as well as lubrication was performed. Replacement of parts, tires and batteries were made as required. The department is most fortunate to have a firefighter who is a capable and skilled mechanic capable of making these repairs and maintaining the apparatus and equipment. This results in a substantial dollar saving to the Town.

In the preceding Inventory of Automotive Equipment it can be noted that the newest piece of apparatus is 8 years old and the oldest is 22 years.

During the next 10 years, as outlined in a report on Capital Expenditures to the Planning Board, it will be necessary to expend in excess of \$125,000.00 for the replacement of fire apparatus. In order to space these purchases so they do not fall in consecutive years it is important that several things be done . . .

1. the scheduled table of replacement be followed.
2. the continued yearly addition of funds to the Stabilization Fund, this has not been done in past recent years.
3. the purchase of carefully designed and engineered quality apparatus, resulting in good life span and useful service.

Summary Of Alarms And Emergency Calls

The following is a summary of the alarms and emergency calls handled by the department in the year 1968. A definition of terms would probably be helpful. A bell alarm is one for which the fire whistles are blown and that the Call Firefighters respond to and a still alarm is one which is handled by the on-duty Permanent Firefighters and no whistle or signal is sounded. By reviewing the following summary it can be learned that the greater percentage of calls are handled by the on-duty firefighters.

BELL ALARMS	84
STILL ALARMS	313
	<hr/>
Total	397

Not included in the above is a total of 203 cellars that were pumped out during the flooding emergency of March 18 - 20. This extra service was a result of heavy rain and flooding throughout the Town, while not a regular service of the department it was done to assist the Townspeople and overcome a disastrous situation.

This summary is broken down into the following classifications:

Flammable liquids	5
Electrical	6
Buildings and structures	22
False Alarms	14
First Aid, Inhalation & Resuscitation	85
Vehicles	15
Automobile and truck accidents	13
Boats	1
Dump	8
Smoke and Gas Investigations	56
Grass, woods and brush	92
Rescue of animals	3
Accidental and needless calls	11
Miscellaneous	25
Burning details	7
Recall of Off Duty Shifts	1

Mutual Aid

Scituate	8
Hingham	19
Hull	5
Norwell	1

In the control and extinguishment of the above fire and emergencies the following amounts of ladders, hose and oxygen were used. As well as the hundreds of tools and appliances that the department carries and maintains.

Feet of ladders raised	648
Feet of 3/4 inch hose used	24,595
Feet of 1 1/8 inch hose used	8,450
Feet of 1 1/2 inch hose used	4,275
Feet of 2 1/2 inch hose used	5,650
Oxygen used in resuscitation and inhalation	310.3 cu. ft.
Rescue boat used	5

Personnel

The personnel and organization of the Fire Department is as follows. All of the Officers and Men of the Department are under Civil Service and promotion to all grades is based on experience and competitive examination.

Chief

Charles Piepenbrink

Deputy Chief

C. J. O'Brien

HEADQUARTERS	GROUP 2	GROUP 1	GROUP 3
Engine 1	R. Perroncello	W. C. Wheelwright	E. J. Sullivan
Engine 4
Ladder 1	J. W. Nash, Jr.	E. P. Barrow
Fire Alarm	W. L. Nickerson	F. S. Wheelwright	P. A. Grassie

NORTH COHASSET

Engine 2	R. J. Henn	J. F. Thompson	L. L. Davis
----------	------------	----------------	-------------

BEECHWOOD

Engine 3	D. R. Marks	A. E. Studley	R. M. Conley
----------	-------------	---------------	--------------

The permanent firefighters and officers of the department work a 56 hour week schedule which results in their being divided into three groups each commanded by an officer. Each group is then divided again and assigned to the various stations. It should be noted that at the North Cohasset and Beechwood Fire Stations there is only one firefighter on duty per shift. This makes effective firefighting difficult until additional help arrives.

Call Firefighting Personnel

Call Firefighters upon hearing a coded signal on the fire alarm system respond to the location and supplement the regular fire force. This call can come at any time of day and under any kind of weather condition . . . their dedication to duty is hopefully appreciated by their fellow townspeople.

Training

Training in the Fire Service is a continuing thing . . . new techniques are tried out and the old ones require continued drill and practice. Again, as in past years members of the department attended the two day New Hampshire Fire Training School . . . this year the courses covered were ventilation and forcible entry, emergency rescue, pump operations, radio procedures and breathing apparatus.

Continued use of training films and slides obtained through equipment manufacturers and in service training sessions were held covering various important subjects such as sprinkler and fire detection systems.

Members of the department attended Massasoit Community College which offered a credit course in Fire Science. This course ran for 16 weeks and covered the Introduction to Fire Prevention. Continuous courses on related subjects will be offered and various department members have registered to attend. These subjects when completed will make a student eligible for an Associates Degree in Fire Science.

Stations And Equipment

Each year all of the fire hose of the department is tested to 250 psi, washed, inspected and dried. Replacements were made as necessary. This is necessary so that a proper inventory of hose is available. This year 800 feet of 2½ inch Double Jacketed hose was purchased . . . this hose is made of synthetic fiber filler, which is stronger and less affected by mildew and rot.

As provided for in the 1968 budget, three more self-contained breathing apparatus units were purchased . . . making a total of ten. These units are of the latest design and much like SCUBA diving units. This purchase completes this program for the present or until such time as additional units become necessary.

Included in the 1969 budget is a sum to allow for replacement of a 27 year old Inhalator-Aspirator-Resuscitator. This purchase is necessary to allow for reliability in this equipment.

The sub-stations at Beechwood and North Cohasset are outdated and totally inadequate. They should be replaced as soon as the financial condition of the Town warrants . . . with a modern, fireproof structure, capable of housing at least four engines and a proportionate number of men, at a location near the geographic center of these two areas. The fire department could then gain better usage of both men and apparatus under this type of operation.

Public Interest

During the summer of 1968 the largest single fire hazard in the Town of Cohasset, the Black Rock House, was demolished. The fire department working in cooperation with the building wrecker burned the debris at the Town Dump and on the site. These burning details were at the ex-

pense of the wrecker and allowed a safe and orderly removal of many many truckloads of combustible materials. Standing, this building was a potential threat to the entire neighborhood but we all can now breathe a sigh of relief.

Residents of the Town of Cohasset have been most cooperative in obtaining permits for fires in the open. This is required by the General Laws of the Commonwealth. A permit can be obtained by calling Fire Headquarters by telephone and a permit will be issued when weather and wind conditions warrant. This permit is good only one day . . . and the holder of the permit must have the fire extinguished by sun down . . . and have means at hand for controlling the fire.

Recommendations

There presently is a committee studying the adoption of a building code. This is most important for the promotion of life safety and the reduction of fire damage in all types of structures and occupancies. Included in this code should be areas that provide for fire protection devices such as sprinkler systems and fire and smoke detection . . . the square foot area and type of occupancy should govern the need. Keeping in mind that 14,000 lives were lost in fires in this country in the past year, most of which occurred in residential fires.

Appreciation

In the past year the department lost one permanent firefighter, Richard P. Oliver, due to a forced disability retirement. Firefighter Oliver joined the department in November 1951 and retired on November 11, 1968. I would like to extend to him the thanks and appreciation of the Fire Department for this faithful and honorable service.

In conclusion I would like to extend the thanks of this department to the citizens of Cohasset, the Board of Selectmen, the heads and members of all town departments and boards, the call firefighters and the permanent officers and men of the department for their cooperation, guidance and assistance during the past year.

Respectfully submitted,

CHARLES PIEPENBRINK

Chief of Fire Department

REPORT OF THE HIGHWAY SURVEYOR

Submitted herewith is the report of the Highway Surveyor for the year ending December 31, 1968.

During the winter months the Department worked on Street drainage, and tried to correct ice conditions, which prevailed in different sections of Town. The Spring saw the sweeping of streets, clearing of catch basins and the painting of street lines. Fences were repaired and painted. Street signs were painted, replaced and repaired.

This year the Department installed 30 Catch Basins and laid 3900' of 10", 12" and 15" drain pipe. Two and one half miles of Mix in Place was laid on various streets and private ways throughout the Town. This work will continue.

In a period of thirteen years, the Department has installed 347 Standard Catch Basins, laid 35,000' of Drain Pipe and resurfaced 33½ miles of roads and private ways throughout the Town.

Chapter 90 Construction and Maintenance Funds were applied for this year. The Construction funds to be used on Elm Street and the Maintenance funds to be used on Jerusalem Road, from Forest Avenue to Rte. 228 at West Corner.

The 1968 Maintenance funds were used on a section of Border Street and to start drainage work on Jerusalem Road.

The Department has money to spend on Forest Avenue. This work consists of resurfacing with Type I asphalt, removing a section of ledge and installing a new culvert.

The Town will receive the balance of the 616 Monies this year, which will be used on South Main Street, from Summer Street to Stanton Road, for the installation of necessary drainage and resurfacing. This project has been approved by the State Department of Public Works.

This Department has tried to keep in mind the ever increasing cost of material and labor and has presented a budget which reflects to a similar one in 1962. This might not be a good policy, but the department can still perform its' duties satisfactorily.

This year the Department has requested under the capital outlay Budget, a Front End Loader with Backhoe attachment to replace the 5 year old machine now used by the department.

The Highway Department has six permanent men who perform all the duties throughout the year.

I wish to thank the men of the Highway Department and the people of Cohasset.

Respectfully submitted,
LOUIS C. BAILEY, JR.
Highway Surveyor

Tags issued for parking violations	783

During the past year all newly appointed officers of this Department completed the required in-service school attendance as required by law.

I want to thank your Honorable Board for all the assistance given the department in the past year also the heads of all departments in the town who have been very cooperative. I also want to thank the officers in the Police Department for their cooperation during the year.

Respectfully submitted,
RANDOLPH A. FEOLA
Chief of Police
Cohasset, Massachusetts

REPORT OF THE RECREATION COMMISSION

The Recreation Commission has just completed its 12th year of operation. The Commission meets on the second Wednesday, every month, at 7.30 P.M. in the Town Hall. Any citizen of the Town is most welcome to attend and bring before the Commission, suggestions as to new recreational activities or improvement of existing programs.

The townspeople should realize that the Commission is expected to handle details of finances, maintenance of recreational areas and new and existing programs. The Commission needs the cooperation of the residents to enthusiastically support and work on recreational activities of their choice.

During the past year Mr. Eustis James was selected by the Commission to be Superintendent, to fill the vacancy caused by the death of Mr. Sullivan on January 4th, 1968. Mr. James' duties have been increased so that he is now responsible for Milliken, Beechwood and Barnes Fields.

At the Beechwood Field 332' of chain link fence was erected along Church Street. Since the baseball diamond is overgrown with weeds, extensive work is planned for the field next Spring. Lumber and paint were supplied to Mr. Vernon Tibbetts, a Beechwood resident, who, with volunteer help, repaired and painted the wooden bleachers and backstop. The Chairman of the Commission, met with the newly formed Beechwood Neighborhood Club, to see what assistance the Commission might give.

The Summer Program, voted by the Town at the March 1968 Town Meeting, was extremely successful. It was a rotating program, run alternately at three different fields — one week at Beechwood, the next at Milliken and the next at Barnes Field. The attendance figure for the ten weeks was conservatively estimated at 1600 children, ages 5 - 12. The Commission plans, for the Summer of 1969, to run two separate non rotating programs for ten weeks; one at Beechwood and the other at Barnes Field.

The Hull Street Playground program, carried on in conjunction

with Hingham, was continued. This is a good joint venture, both physically and financially.

The Commission, at the suggestion of a resident, has proposed a plan to light the tennis courts at Milliken Field and set up two basketball courts. The Commission has requested money from the Town to carry out this plan which would provide both night tennis and basketball.

The Commission has requested a new backstop for Barnes Field. During the past year the Cohasset Youth Athletic Association (CYAA) paid for the fence that runs along the third base line in front of the dugout. These, of course, are for the added protection of the growing number of persons that use the field.

A simple brochure on the Recreational Facilities and Activities in the Town available to the residents is being assembled. This is being done mostly on a volunteer basis by members of the Commission and others.

The Commission has discussed the proposal that a teenager be sought as an additional member of the Commission. This addition is, of course, to establish another area of communication between age groups, which at this time is badly needed.

The Commission wishes to thank all Town Officials and members of the various committees and boards for their cooperation and understanding. Only by working together can any progress be made.

Respectfully submitted,
HAMILTON T. TEWKSBURY, Chairman
NORMAN J. DELANEY
HAROLD F. BARNES
ROBERT J. HALL
DENNIS W. KUNTZ

REPORT OF THE CONSERVATION COMMISSION

In 1968 the Conservation Commission proposed to Town Meeting that the town acquire Sassafras Rock, a small rocky island in Little Harbor frequented for nesting purposes by terns and ducks. Approval was given by the townspeople and the property, which seemed to belong to no one, is in the process of being acquired; after which time it will be preserved in its natural state.

The Commission is in the process of developing a major natural resource plan which should be useful to present and future Conservation Commissions and which is required by the State if matching funds are to be obtained in the future for conservation land acquisition. The plan will include areas which the Commission thinks are worthy of acquisition for recreational and conservation purposes. Application for

technical assistance in this project is being made to the Norfolk Conservation District.

The Cohasset Conservation Trust, the work of which is closely related to and encouraged by the Conservation Commission, had an active and productive first year. The report of its activities and accomplishments follows:

The Cohasset Conservation Trust's first calendar year of operation was very successful. It was highlighted by increased activity, enlarged membership and acquisition of our first parcel of land.

At Trustees' meetings during the year various projects were discussed. Also, several suitable pieces of vacant land were considered for possible acquisition or easement.

Because of increasing use of the harbor by more and more residents of Cohasset and the growing importance of waterfront property, it was decided to direct our energies first towards the possible purchase of Bassing's Beach. After negotiations were completed with Parker F. Schofield, the owner, a community effort was launched in July to raise the necessary funds and two months later the goal was reached. We are now in the process of repairing the two cottages on the property. It is hoped that sometime in the future additional property might be available adjacent to the present 12½ acres.

Membership following the first meeting in May 1967 has increased from 50 to 400. This is most gratifying and we hope that it will continue to grow as additional projects are undertaken.

The Trustees wish to thank all those who gave of their time and effort this summer to campaign for Bassing's Beach and all those who through their generosity made the acquisition possible.

Trustees of the Cohasset Conservation Trust are Edward B. Long, John F. Hubbard, Osborne F. Ingram, Richard D. Leggat and Hatherly L. Souther.

JOHN F. HUBBARD, Chairman

REPORT OF THE COHASSET PUBLIC SEWERAGE STUDY COMMITTEE

This committee strongly feels that the sanitation needs of the center of town should be served by the public sewerage facilities presently under construction in Jacobs Meadow and to this end appropriate articles will be proposed at a future town meeting.

Other areas of town have problems, as is well known, and this fact impels the committee to a serious consideration of a long range plan for the Public Sewerage System.

Recently, as a result of tests made in August, 1968, the State Dept. of Public Health has informed the town that plans to extend the sewerage system to serve the area between Clay Spring Road and route 3A should be made immediately. The alternative to this solution will be "for the town of Cohasset to locate and eliminate all connections to the street drains in the Veteran's Housing" area. In a later communication the State, while again requiring that town officials proceed immediately with corrective work, suggests that temporary measures may be implemented on an emergency basis. It is clear that eventually a permanent solution to what is obviously a permanent problem will have to be advanced.

The committee therefore regards these problems as sufficiently serious to request that this report be accepted and that the committee be continued.

EARL McARTHUR
Plumbing Inspectors

This has been another year of little strife or turmoil for the Board of Health, thanks again to the efficiency and dedication of the real workers of the team, the agent and the public health nurses. The secretarial and office workers must also be given their share of the credit.

There have been a minimum of complaints from the sewage disposal branch of operations, but we realize the number of complaints are not truly representative of the problems involved. Few people will call to complain that their own sewage disposal system is not working. We hope, however, with the inception of a treatment plant and public sewer system for the schools, that this system will shortly encompass a major portion of the center of town and eventually become all inclusive for the entire town. This perhaps, is an inappropriate time to talk of a public sewerage system, what with the already predicted increase in our tax rate, but it must be considered very seriously, particularly in view of the fact that already we may be dealing with possible contamination.

The dump has been a source of difficulty. We are considering a change in the operation of the dump and feel that if its management does not satisfy us that changes must be made. We are making slight changes in the hours of operation consistent with daylight hours. They will be changed again with the onset of daylight saving time.

Once again, we the Board, are grateful to all who have helped us throughout the year.

This year, for the first time, pre-school physicals were given at our May Well Child Clinic. Fifteen availed themselves of this service. Attendance at the Well Child Conference has been slightly down from last year. However, I feel it would be ill-advised at this time to curtail the number of clinics until it can be more conclusively determined whether the trend is permanent or temporary.

Casework Report

Four cases were carried over from 1967, and two of these are still active. In addition, two cases were referred by the Board of Health in 1968; one a financial investigation to determine eligibility for help with a hospital bill. The second was a man with a severe illness, on whom securing of medical information was needed. Also, reassurance was given to the family, and help in obtaining financial assistance.

Dental Clinic

A report of the Dental Clinic, sponsored by the Board of Health, will be found in the report of the School Department.

ANNUAL REPORT OF THE SCHOOL COMMITTEE

Regular Meetings of the Committee: The Third Monday of each month 8 P.M. — High School.

Superintendent of Schools

William Ripley, Jr.

Helen Mitchell, Bookkeeper

Ruth Bacigalupo, Secretary

School Physician

Dr. Robert T. Sceery

School Nurses

Ethel Gormley, R.N.

Jean Thompson, R.N.

REPORT OF THE SCHOOL COMMITTEE

This has been a busy year for your school committee. In addition to our regular monthly meetings we have had many special and sub-committee meetings.

The additional rooms provided by the new addition to the High School have offered some much needed relief. The need for these additional rooms can be best demonstrated by comparing this year's 12th grade which numbers 99 students, with the present 6th grade, which has an enrollment of 175.

Overcrowding is still a matter of concern at both the Joseph Osgood and Deer Hill Schools. In order to provide some relief at the Deer Hill School an additional teacher will be added on January 2nd. This is a temporary step being taken to forestall any thoughts of getting into another expensive building program at this time.

The Metco program which Cohasset participated in this year appears to be a success. Nine Boston students are enrolled in this program.

At this writing your committee is considering the 1969 budget which contains the largest increase in history due mostly to our larger enrollment. Rest assured that your committee is giving serious consideration to the impact this budget will have on the taxpayers and that we will make every effort to keep it to an absolute minimum, without damaging or curtailing the high standards which now exist in our educational system.

In closing I wish to express the Committee's thanks to our Superintendent William Ripley for his cooperation. He has given notice that he wishes to conclude his services as Superintendent on July 30, 1969. As he closes out a long career of Public Service to the town, we wish to say congratulations on a job well done. In addition to taking the necessary steps to keep pace with our ever-increasing school enrollment he has brought outstanding teachers into the system, he has adopted modern teaching techniques and has established wonderful personal relations with students, teachers, parents and school committee members. The high rating of the Cohasset Educational System stands as a testimony to his many accomplishments. May his future be blessed with many years of good health.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

I hereby submit my twenty seventh report as Superintendent of the Cohasset Public Schools. The year 1968 has seen the practical completion of the addition to the renovation of the facilities for secondary school pupils. In September the added facilities included eleven general classrooms, three science laboratories, one band and lecture room, one chorus room, a new home economics suite, a language laboratory, and administrative offices in the new West wing of the building. In the East wing a new study hall and enlarged kitchen facilities were in operation. Renovations in the original building included a new chemistry laboratory, improved Guidance and Health facilities, and enlarged Junior High Shop, and the conversion of the old music room to a Junior High Art room. In October the new library located in the central courtyard was in operation. It is expected that the new gymnasium with renovated locker rooms will be fully operational by February 1.

The major part of the site development was completed by November 1. This included parking areas, playing fields, and tennis courts. By the spring of 1969 we expect final completion of this work.

The first four months of occupancy have indicated a functional building capable of having a flexible program meeting the needs and interests of our students. To take full advantage of this the administration has substituted a modular scheduling system. Currently the town, through its School and School Facilities Committee must address itself to the problem of elementary housing. Although the projections for elementary enrollment do not present a clear picture at present, the 1969 enrollment should clarify the problem.

The Pupil-Teacher Ratio Advisory Committee of the Massachusetts Department of Education has recommended an ideal ratio of 25:1 with supporting professional personnel of 100:1. In our elementary schools the ratio is 28:1. Also, at present two buildings are at near capacity. Therefore your School Facilities Committee has been considering possible sites with the expectation of making a recommendation to the town in 1969.

I should like to mention the helpful supportive action of two groups, the Cohasset Parent-Teachers Association and the Cohasset Boosters Club. The PTA should be commended for its fine programs and assistance at open houses, in the lunchrooms, and libraries. The Boosters Club has encouraged and supported extra curricular activities and the building of school loyalty and spirit.

I feel that the quality of our educational program depends upon the professional competency of our principals and teachers. It has been a privilege and a pleasure to be associated with the competent and fine people who have filled these positions not only this year but throughout the years. Actually, the instructional staff makes the schools; bricks and mortar are incidental.

May I express my gratitude to the hardworking members of the School Committee, who are true representatives of this community and who have made it such a satisfaction to serve with throughout the years.

Miss Mary Phipps, supervisor of music, retired this year after fourteen years in the Cohasset Public Schools.

It is my sad duty to record the death of Mr. Charles Smith, the first custodian of the Deer Hill school who had just completed fifteen years of faithful service in that building.

Since the world in which we live has changed, education must adapt itself to the new environment in which we find ourselves. Most of us have observed that our younger generation becomes more sophisticated at an earlier age. Therefore, unless we adapt and adjust our educational methods, they become outmoded and ineffective. These problems must be met with vigorous action and understanding.

Respectfully submitted,

WILLIAM RIPLEY, JR.
Superintendent of Schools

REPORT OF THE SOUTH SHORE REGIONAL SCHOOL DISTRICT COMMITTEE

This year the students of our Carpentry Department completed our first home-building project. This large split-level house had all wiring and electrical heating installed by our Electrical Department. To provide the necessary practical on-the-job experience, we hope to contract for one home each year.

This year's graduates were sought after by industry with most students placed long before graduation. In addition, many former graduates, having completed their military obligations, are availing themselves of our placement service. In most cases they are working at their trade within one day after the initial request.

This past summer we conducted our five weeks of summer school each morning in the areas of remedial reading and mathematics.

Ten of our students were employed in a work-study program during July and August. They repainted all building trim and completed many minor repairs to maintain the school in its original condition. Since 3/4 of the wages are financed by Federal Funds, this results in considerable savings.

Scheduled to start in January, 1969 is a new day school course for training combination welders. We start with fifteen students at the ninth grade level. This will make ten trade areas that we will be serving.

In October 1968 we opened another Manpower Training program for Radio and Television Repairman. Twenty trainees drawn from the ranks of the unskilled and underemployed will be given a new trade. The course runs six hours a day, five days a week and will continue through next August.

Our evening school program continues to flourish with 129 persons enrolled in eight trade areas. In addition, our facilities are being used by the Old Colony Power Squadron one night each week to conduct a course in piloting for almost 200 persons.

We are gratified to report that our fine facility is being used in diversified ways to serve our regional towns, but it is more regrettable as time goes on that the enrollment of Cohasset boys continues to decrease. Something is wrong. While other regional towns have increased their enrollments, Cohasset alone fails to make effective use of this marvelous training facility. Our excessive per pupil cost reflects in part the fact that far fewer Cohasset boys are enrolled than was anticipated when Cohasset originally joined the South Shore Regional School District.

Respectfully submitted,

JOHN A. GEARY

Cohasset Representative
South Shore Regional School
District Committee

REPORT OF THE TOWN ACCOUNTANT

To the Board of Selectmen and the Citizens of the Town of Cohasset

In accordance with Chapter 41 Section 61, I submit herewith my first annual report for the year ending December 31, 1968 as follows:

- (1) Detailed statement of receipts and expenditures.
- (2) Trust funds in custody of Treasurer.
- (3) Statement of Town Debt.
- (4) Summary of appropriations and other accounts.
- (5) Balance Sheet - December 31, 1968 - General Accounts.
- (6) Balance Sheet - December 31, 1968 - Trust and Investment Accounts.

WILLIAM S. SIGNORELLI

Town Accountant
